Twelve Dollars a Week.

One of the first moves of the strike leaders to keep the men in line will be to increase the weekly strike benefits. The drivers on atrike now receive 110 a week. The express drivers union has arranged, according to the officials, to pay its 900 members 111 weekly, beginning next Monday. If sufficient funds can be relased, the benefits paid to other strikers will be increased in proportion.

RIOTS IN LUMBER DISTRICT.

Chicago Strike Seriously Affecting the Building Industry.

CHICAGO, May 26 -Strike rlots have begun in the neighborhood of the lumber district. At Thirty-fifth and Morber district. At Thirty-fifth and Mor-gan streets, twenty lumber and shav-ing wagons, fourteen of which belonged to the Rittenhouse & Embres company, and guarded by upwards of forty po-lice, were attacked by a crowd of more than 400 strike sympathizers with bricks, stones and slingshots. While the police used clubs, the fighting waged indecisively. Pinally the police drew revolvers and charged the crowd. The sight of the firearms quickly quieted things, the mob generally flee-ing. No arrests were made.

ing. No arrests were made.

At Thirty-fourth street, near by, police on guard were later forced in doors.

Many of the strike sympathizers armed themselves with small air rifles and from lumber pites and buildings fired intermittently at the police, a number intermittently at the police, a number of whom were struck without being able to see the assailants and were finally forced to take refuge in offices and other nearby buildings.

Carpenters Go Out.

Carpenters Go Out.

The building industry of Chicago faced a fresh complication today in sympathetic strikes among carpenters and other workmen. At a dozen buildings the contractors encountered the alternative of sending back lumber delivered by non-union teamsters or having strikes to deal with. In a large number of instances the lumber was accepted by the contractors, whereupon the carpenters and other workmen promptly laid down tools and quit. While the Carpenters' district council has refused to authorize a strike, the members of the union declare there is a tack understanding that they are not required to work under protection or required to work under protection lumber delivered under police

Lumber Mill Shut Down.

The first lumber mill to shut down because of the shortage in supplies was that of the J. W. Landis Mill company. Fires were drawn today and the worklaid off.

It is no use trying to do business "It is no use trying to do business under present conditions," said Mr. Landis. "The police cannot give us adequate protection. We tried to send out five wagons with ten policemen, but failed. Fifty policemen would not have been enough. I believe the troops must come to Chicago. I do not believe their presence here will injure Chicago They are required to give the unions a

Police Fire Shots.

Police Fire Shots.

Shots were fired by police today in the lumber district. At Twenty-second street and Ashland avenue a crowd jeered passing lumber wagons driven by non-unionists. The police ordered the crowds to disperse, but the order was unbeeded. The police then drew their revolvers and fired several shots to frighten the crowd. Two arrests were made and the wagons reocceded without further disturbance. Elsewhere in the district the police were kept busy clearing out shoons and dispersing crowds of idle men.

Building Trades Ignore Strike.

Building Trades Ignore Strike.

At a meeting of the Associated Building trades tonight, at which twenty-nine trades affiliated with the building industries were represented, it was decided that no action will be taken which will tend to drag the building trades into the teamsters' strike. This action on the nart of the building trades will go for toward restricting the strike to be present limits, as it means that the members of the building trades unions will work with materials irrespective of the fact that they are hauled in wagons driven by non-union teamsters.

Withdraw All Support.

Withdraw All Support.

It was decided at the meeting to with-deaw all the financial and moral support, that the building trades unions have been giving the teamsters thus far in the strike. This means a loss to the team-sters of \$1000 a week, which they have received from the building trades un-

A committee was appeinted to convey to President Shea of the teamsters, the action voted by the building trades. The news visibly affected him, and he replied. "I can't believe that this is true. The building trades workness are too loyal to unionism to take this position."

Young Is Defiant.

Albert Young, the chief lieutenant of President Shea, assumed a defiant atif-tude. He said:
"The building trades will find that the teameters can take care of their strike without the aid of the plumbers, plaster-ers and the rest of them."

Congress Will Consider Maximum Duties, Says Secretary Shaw.

DES MOINES, Ia., May 26.-Secretary of the Treasury Shaw, speaking today before the Des Moines club, said that the following amendment would be introduced at the next session of Con-

reas:

"Be it enacted, that whenever any country grants to the people of any other country privileges within its markets which are withheld from the people of the United States, then, and in all such instances, the tariff duties on merchandise coming from these countries showing such preference shall be — percent higher than provided in the schedule of existing tariff laws."

"This would constitute a maximum and a minimum tariff, the maximum to be enforced only against such countries as exact a maximum rate against us," said Mr. Shaw.

Strategists Believe Russian Squadron Is Well Bunched.

ST. PETERSBURG, May '27, 5:50 a. m .-While a flying rald of one or two commerce destroyers in the Eastern sea is admitted as a possibility by the naval authorities here, these authorities are loath to believe that any division of Rojestvensky's squadrons in an important sense has taken place, as reported from Shanghai. They prefer to assume that the unspecified Ruesian ships renorted to be outside Shanghai. Ilie the six which entered the port of Woosung, are units of the transport feet without special fighting value, and that perhaps they have been sent thither to confuse the scent for Toge. A prominent naval strategist said to the Associated Press.

I don't know where Admirai Rojestvensky is at present, but wherever he is you may he sure that he has his ontire lighting force well bunched and is not weakening his main squadron in the face of the enemy. While it is possible, of course, that he may have chosen to double sharply to the westward north of Formora and to seek Togo in the Eastern sea with the purpose of forcing him to accept battle. I am inclined to believe accept battle. I am inclined to believe that he is pursuing a course northward outside Japan.

"The ships whose arrival near Shanghai has been reported are not even classed as so-called converted cruisors but vessels which, fixing the commercial flag, were usable for transport purposes when passing Singapore, and the mystic seventeen vessels reported as being outside Shanghai are probably colliers, with perhaps a guard vessel or two.
"I should not be surprised, however, if Rojestvensky detached several speedy liners, now converted croilsers, for a raid to the northward inside the Luchu islands in order to parsiyze Japanese commerce and embarrass Togo while the Russian fighting squadron is pursuing its main objective."

Baron Komura said that the financial capability of Japan had completely surprised the world. He was glad that Japan was showing a financial and productive ability as well as strength on the battlefield. The war, he said, would lest long, and he trusted much in the commercial ability of the Nation after this war was ended, when a greater prospect would be opened before the country. He expected, he said further, that the commercial interests would do their utmost to develop and extend commerce. He also expected the introduction of foreign capital, and he counseled his hearers to facilitate this introduction by inspiring foreign capitalists with confidence in the country.

Baron Sono thanked the financial and commercial interests for their great assistance in financias the war.

Baron Shibusawa said that the commerce and productive capacity of the Nation was growing despite the war. The bank clearings he said, for 1961, exceeded \$2.000.00000, which amount was unprecedented. He expected that the bank clearings for 1955 would exceed two and one-half billion delines.

Orders Equitable Not to Mutualize

Justice Maddox Issues an Injunction Against the Board of Directors.

NEW YORK, May 26 -The motion of Franklin B. Lord, which sought to re-strain the directors of the Equitable Life Assurance society from mutualizing the company, was granted today by Justice Maddox in the Supreme court in Brook-lyn. In granting the motion Justice Mad-dox said, after reviewing the facts in the Limits of the Order.

"The motion, therefore, is granted, but is limited to the filing and effectuation of such proposed amended charter, for it appears that such contemplated amendment has been adopted and executed by the board of directors."

The injunction against the mutualization of the society is to be in force only pending the trial of the action, which also involves the same question.

Rights of Policy-Holders.

Rights of Policy-Holders.

In his opinion Justice Maddox sustained the contention that the Equitable stockholders never had a chance to vate on the mutualization plan, and rejects as of no merit the suggestion made in court by counsel for James H. Hyde that the assent of a majority of the stock was sufficient, even if no stockholders meeting had been held. The Justice quoted from former judicial decisions to the offert that the Equitable was a sinck, not a membership corporation, and that policyholders are not members of the company. To deprive the owner of stock of the right to vote for the management of the company Justice Maddox held, might he the same as depriving him of his properly. The Justice did not express an opthion as to the ownership of the company's surplus further than to say that whatever right, if any, the stockholders may have to the surplus must await the company's final distribution, while the policyholder's right is dependent on his policy and its continuance, and must be determined by the torms of the policy. Internal Differences. Internal Differences.

The internal differences between some of the gentlemen must prominently connected with the management of the company have had no weight with the court on this motion. The intentions of all arapresumed to be for the good of those interested, and it is for the court only to consider and fearlessly to determine the questions presented.

The motion to strike out certain statements contained in the plaintiff's papers and in the intervening petition files by James H. Hyde and William H. McIntyre are denied. The motions to strike out these statements were made by counsel for James W. Alexander, president of the Equitable.
